FIND IN STOCK FABRICS AT THE END OF BROCHURE

FOREST IN STOCK FABRICS

OUR STOCK ROLLER SHADE FABRIC PROGRAM is designed to offer you design trends in each of three categories - screens, light filtering, and blackout. We believe you will find a color and performance factor to meet your needs within this offering. Fabrics were also selected to work together in a single color palette when you need to pair a screen or light filtering fabric with a blackout. This is helpful when using a double roller shade system or when a single room has a variety of shading requirements.

All fabrics are suitable for any of our roller shade systems.

Fabric images are a close representation, but for best results please email sales@forestdh.com to order a swatch card.

SCREENS

With two openness factors, 3% and 5%, our screen collection offers the ideal solution for all needs in terms of heat and/or light management. Screen fabrics are made of high-quality polyester yarns for strength and durability.

LIGHT FILTERING

Our light filtering collection offers transparent fabric that filters the light in a delicate way. The inspired fabric is available in a range of timeless colors.

BLACKOUT

Our blackout fabric has a flocked backing which gives the back side of the fabric a soft textile appeal. With this fabric the room is completely darkened.
